

Concept Proposal for Zomba Baptist Church ZBC Church Website

Objective: To develop a user-friendly, modern, and engaging website for ZBC Church that effectively communicates the church's mission, values, events, and community involvement. The website will serve as a hub for information, interaction, and spiritual engagement for members and visitors.

Key Features & Structure

1. Homepage

Church Vision & Mission Statement: Clear and concise introduction to ZBC Church's mission and purpose.

Call to Action: Encourage visitors to join services, become a member, or contribute to the church.

Upcoming Events: Highlight key church activities, events, and important dates.

Recent Sermons/Devotionals: Easy access to the latest sermons or devotionals, both in video and audio formats.

2. About Us

Church History: Overview of the church's founding, growth, and impact in the community.

Pastoral Team: Profiles of pastors and church leaders.

Core Beliefs: A section dedicated to the core beliefs of the church.

3. Ministries

Youth Ministry: Information on activities, events, and outreach for young people.

Women's Ministry: Overview of the women's group and initiatives.

Men's Ministry: Information about activities and programs for men.

Outreach Programs: Details of the church's work in the community and how to get involved.

4. Sermons & Resources

Sermon Archive: Organized by date and topic, available for streaming or download.

Devotional Materials: Weekly devotionals, Bible study materials, and downloadable resources.

5. Events

Church Calendar: Interactive calendar showcasing upcoming church services, events, and community activities.

Event Registration: Allow members to sign up for events or volunteer.

6. Giving

Donation Goals: Show current campaigns, fundraising efforts, and progress bars.

7. Contact Us

Contact Form: For inquiries, prayer requests, or appointments with church leaders.

Location & Service Times: Map integration and updated information about service schedules.

Social Media Links: Connection to the church's social platforms for community engagement.

Technical Requirements

Responsive Design: The website should be mobile-friendly and accessible on all devices.

Content Management System (CMS): Easy for church administrators to update content.

Cost Estimate (in Malawi Kwacha)

Service	Cost (MWK)
Website Design & Development	MWK 70,000
Content Management System Setup	MWK 50,000
Responsive Design	MWK 50,000
Maintenance (1 month)	Free of charge
User Training	MWK 30,000
Total	MWK 200,000

Additional Notes:

Timeline: Approximately 4–5 weeks to complete development.

Payment Terms: 40% upfront and 60% upon completion.
